Creating Your Perfect Keepsake

Thinking of a fingerprint keepsake for yourself or someone you love? With so many custom options to choose from, creating your own keepsake can be overwhelming—but we're here to help!

The next four pages are a step by step look at the many custom options that Imprint On My Heart offers to help familiarize you with all that is possible. Throughout the rest of the catalog, you will find pages grouped by product style and shape with photographs of designs created by Owner and Jewelry Designer Kathryn Albers. These are presented to serve as a general guide for ordering—not as exact representations of what your piece will look like. Because each piece is custom made especially for you, and because each fingerprint is unique, variations will occur and your keepsake will be a truly one-of-a-kind family heirloom.

The Details

It All Starts With The Print...

When you place your order, you will receive a kit by mail with everything you need to take your print(s) along with detailed directions. If you already have an inked print, we can create your keepsake from a photocopy or scan.

Choosing Your Jewelry Type

Are you looking for a special occasion piece like 18k gold drop heart earrings or more of an everyday wear piece like a pendant or ring? Something for a gift that you know the recipient would touch every single day like a keychain?

Choosing Your Shape and Style

A traditional heart or a sleek modern oval? Whatever your heart desires—from the designs shown in our catalog to a completely custom shape of your making.

Customize!

Don't see what you're looking for in this catalog? Imprint On My Heart is truly custom—we can assist you with creating whatever your heart desires. Please inquire for more information.

Choosing Size

When choosing the size of your keepsake, consider how it will be worn. For example, petite sizes work best for charm bracelets, medium and large sizes are fitting choices for necklaces, and extra large sizes work great for a bigger statement when worn around the neck, and make perfect key chains.

We also offer Vermeil and finishes for an additional fee.

Vermeil is real gold that is chemically bonded onto sterling silver. Vermeil allows you to have the look of gold at a fraction of the price. Pricing at left is in addition to the cost of the sterling silver jewelry piece chosen.

General Information

Each fingerprint jewelry item you order is custom crafted commissioned artwork and very personal in nature. Every piece is cast and finished by hand. Surface and size variations are to be expected and add to the natural beauty and individuality of these unique keepsakes. Each piece undergoes close inspection during the crafting process and no item is sent if flawed.

Quality of Prints

Final results vary based on the quality of the fingerprint and the type of metal chosen. Prints of infants and toddlers may not be as well defined as those of older children and adults. Fingerprint definition of the deceased varies depending on the length of time after death the prints are taken. Fingerprints in sterling silver can appear to have greater definition with a patina finish than fingerprints in gold.
