Quick Facts / Overview

- Custom hand-crafted fine jewelry created using fingerprints, handwriting, and/or artwork.
- Unique and very personal gifts for family members and friends that can be passed on for generations.
- Made in the USA using high quality solid cast metals in sterling silver, 14k and 18k yellow, white, rose and green gold and vermeil plating.
- Each piece is completely customized for the individual customer from start to finish.

Our Products

Imprint On My Heart offers two custom jewelry product lines:

(1) Fingerprint Jewelry: Created from an inked print from a fingerprint ID card. Usually created from a fingerprint, toe print, ink footprint or handprint. Paw and nose prints of pets are also available (pets are printed using a molding compound).

(2) The Love Notes Signature Collection®: Created from a sample of actual handwriting, signature, or from a child's drawing.

Each piece is entirely custom and handcrafted from start to finish in the USA.

Product offerings include but are not limited to: charms, pendants, bracelets, rings, earrings, key fobs, dog tags, lockets, cuff links and paperweights.

Our most popular shapes are hearts and circles, but jewelry is available in any custom shape desired with many available additions such as gemstones and shaped cutouts. Engraving is included with every order.

Gift certificates are available. We ship worldwide.

The Process

When an order is placed, Imprint On My Heart contacts the customer by phone or e-mail to discuss the custom details of the order and ensure accuracy. If the customer does not have a pre-existing inked print to work from, an ink print kit is shipped to the customer with detailed directions for taking prints. After the completed prints are received by Imprint On My Heart, it takes approximately 4-6 weeks for the customer to receive their keepsake.

Who We Are / Company History

Kathryn Albers, founder and owner of Imprint On My Heart, spent many years enjoying a successful career as a network engineer for some of America's top software corporations—but despite her rewarding career and steady climb up the corporate ladder, something was missing. The long and unpredictable hours made finding time for much else difficult, and when her first child was born, Kathryn knew it was time for a change.

Fueled by the love for her children and by the desire to express herself artistically, Kathryn followed her passion to the art of lost wax casting and jewelry design and creation.

"Children make such an immediate imprint on your heart the moment they are born," Kathryn explained. I needed to capture who they were and just how deeply my children touched me."

From her love and ambition, Imprint On My Heart was born.

Quotes

"Imprint On My Heart offers high quality jewelry pieces that translate the unique characteristics of a loved one into a keepsake that can be passed on for generations."

~ Kathryn Albers, Owner, Imprint On My Heart

"Words do not express the loving emotion your jewelry pieces convey. I cannot thank you enough for the gorgeous hearts you custom made of my grandmother's fingerprint! The way you imprint the heart - draws me to place my thumb on top of it & hold it - I can hold her hand & feel her love whenever I need to."

~ Donna R., Customer

"This piece will be passed on to my children and on down through future generations. It's so rare to find a piece these days that can become a true family heirloom."

~ Jade B., Customer

"I love the earrings. They are absolutely perfect. I started tearing up a little when I saw them."

~ Jennifer M., Customer

"I love my necklace. I've had numerous compliments on it. I haven't taken it off. I just wanted to say thank-you."

~ Marylee G., Customer
