Choosing Quality with Imprint On My Heart

Imprint On My Heart uses only the finest solid cast precious metals and natural gemstones. Our keepsakes are the top-of-the-line choice for fingerprint jewelry. Prints and handwriting are cast into the metal (not engraved) so they do not wear off. This attention to quality materials and craftsmanship ensures you will receive an heirloom quality keepsake that will last for generations.

Choosing your Keepsake

Print Type

Use any fingerprint, thumbprint, hand/footprint for your design. A hand/footprint will work best for infants. Imprint On My Heart can supply an ink fingerprint kit to take your own prints at home if you do not already have them.

Selecting Jewelry Design and Size

All our keepsakes are solid cast, sturdy and ideal for everyday wear. Please consider size when choosing the design that fits your needs. Engraving is always included.
