Imprint On My Heart

Fingerprint Jewelry & Gifts

Kathryn Albers, owner of Imprint On My Heart, created the business out of the love for her children. Her passion for making custom keepsake gifts became the driving force behind her fingerprint jewelry business.

Kathryn created *The Love Notes Signature Collection* in loving memory of her grandfather whose fingerprint the family did not have—but they had his handwriting. This collection is perfect for those without a copy of a fingerprint, or those who would like to add a special message to their jewelry in their own handwriting, the handwriting of their loved one, or a child's drawing.

Each piece is lovingly hand crafted from start to finish in her own studio, resulting in fine jewelry pieces that make lasting personal keepsakes of the ones you love that have touched your life.

An Impression Is Born

The process of capturing a moment in time for a custom jewelry piece is a labor of love that takes time, patience, and skill. From the initial design consultation to the final polished and engraved piece, each step can be customized to suit your needs. The entire process takes approximately four to eight weeks.

Impression Jewelry

Each impression jewelry piece, made from a finger, thumb, or toeprint, is custom made using a special impression kit or a fingerprint ID card. The details of the lost wax casting creation process vary depending on the print method you choose, but both produce high quality jewelry pieces that will last for generations to come.

The Love Notes Signature Collection

In addition to the impression jewelry, *The Love Notes Signature Collection* features your own handwriting, the handwriting of your loved one, or a child's drawing. From a crisp, clean photocopy, your desired writing, signature, or drawing can be transferred to a fine jewelry piece of your choice.

Multiple Prints

What parent doesn't want to cherish their children's individuality? Multiple print designs are perfect for several fingerprints from one child, a fingerprint from each sibling or grandchild, mother child combinations, or the entire family. The collective design is one that speaks passion. Final piece size depends on your chosen design and the total number and size of fingerprints used.

The Love Notes Signature Collection

The ultimate in custom jewelry! Love Note pieces can be created using the actual handwriting of your loved one, your own handwriting, or from your child's artwork—preserved forever as a jewelry keepsake. Each *Love Notes Signature Collection* design can be crafted as a stand-alone piece or added to the back of your fingerprint jewelry design. Size varies depending on which custom keepsake you choose.

Imprint On My Heart
Fingerprint Jewelry & Gifts

**Because each piece is individually hand crafted and made to order,
the possibilities are limited only by your imagination.**

Each piece is completely custom made—hand crafted in our studio from start to finish. Therefore, no two pieces are exactly alike, and the examples in this catalog may vary somewhat from your final jewelry piece. Every design is created around the individual fingerprint to bring out the most attractive features and best display of that specific fingerprint. Pet paw print keepsakes are also available.

The size of the fingerprint also has an impact on the size of the design. A full child's fingerprint will fit almost every design. For a large adult fingerprint, only a portion will be captured for charms and other small designs. If you prefer a specific size, please let us know. For example, you may order a 0.5" circle charm of an adult print, and we will use only the swirl or other most attractive part of the fingerprint for your piece.

The possibilities are endless—a dragonfly, a unique heart shape, a whale or other design of your choice. Please contact us to discuss making your design ideas into a fine jewelry piece that will last for generations to come .
