## Why Choose Imprint On My Heart?

Imprint On My Heart uses only the finest solid cast precious metals and natural gemstones. Our keepsakes are the top-of-the-line choice for memorial jewelry. Prints and handwriting are cast into the metal (not engraved) so they do not wear off. This attention to quality materials and craftsmanship ensures you will receive an heirloom quality keepsake that will last to be cherished for generations.

## Choosing your memorial

### Print Type

Use any fingerprint, thumbprint, hand/footprint for your design. A hand/footprint will work best for infants. Your funeral director can take prints for you if needed. It's as simple as a little makeup on the finger then pressing on paper.

### Selecting Jewelry Design and Size

All our keepsakes are solid cast, sturdy and ideal for everyday wear. A locket is the perfect choice for carrying a photo of your loved one with you everyday. Our cremation ash pendants carry a small amount of your loved one's cremated remains. Please consider size when choosing the design that fits your needs. Engraving is always included.

### Choosing a Metal and Finish

We offer Sterling Silver, 14k and 18k White, Yellow and Rose Gold. A high polish or brushed finish is available for any keepsake.

Your funeral home director can provide additional assistance with choosing your keepsake and placing your order.

Throughout this catalog, you will find pages grouped by product style and shape with examples of what families have created as keepsake memorials of their loved ones. These are presented to serve as a general guide for ordering—not as exact representations of what your piece will look like. Because each piece is custom made especially for you, and because each fingerprint is unique, please understand that variations will occur.
